

Spaulding Memorial Library Survey
January 2017

Our library was built over 90 years ago. We have long outgrown our space and are more than crowded. We want to be relevant, provide more programming and have space for everyone from toddlers to teens to seniors. There are so many possibilities for how an expanded library could be used and how it would benefit Sebago. This survey is very early work and just the beginning of a long process. Will you take a few minutes to help us begin by telling us which uses matter to you.

Thank you.

1. Aside from the staff, what's your favorite thing about Spaulding Memorial Library as it is right now.
2. It could be even better if...
3. Which do you use? (Circle all that apply.) Books, magazines, audio books, computers, WIFI, programming, story time, work or study time, consulting the librarian? Other?
4. What would you like to see in the library that the existing building can't accommodate?
 - *space for clubs, meetings, academic classes
 - *performanc space, social gatherings/programming like artists and authors
 - *more computers/technology
 - *quiet space for study/reading/reflection/consultations
 - *display areas for local artists galleries/historical society/.etc
 - *civic forums/discussions for local issues
 - *space for business center/co-working/job seeking & resume writing seminars
 - *space for DIY, maker, STEM (science, technology, engineering, math) programs where community members share skills and knowledge of crafts, hobbies, technology tools, exercise and the arts.
 - *centers for children, teens and senior citizens
 - *garden
 - *other types of collections/kits for borrowingOther?
5. Anything else we should keep in mind?
